July 25, 2019

Traffic Alert
Twin Peaks-Blue Bonnet Road
Gravity Sewer Project

This is a series of traffic alerts that will be issued throughout the construction of the Pima County Regional Wastewater Reclamation Department’s Twin Peaks-Blue Bonnet Road Gravity Sewer Project. These alerts will announce construction, detours and street closure information as it affects traffic. Please watch for updated traffic alerts as construction activities progress.

Pima County Regional Wastewater Reclamation Department (RWRD) and their contractor, Achen Gardner, have begun installation of a 15-inch sewer interceptor line along Hartman Lane, between Linda Vista Boulevard and Cortaro Farms Road. The contractor began work south of the intersection at Cortaro Farms Road and is working northward toward Linda Vista Boulevard. The sewer installation along Hartman Lane is expected to be complete in September 2019.

Sections of Hartman Lane will be completely closed to motorists, pedestrians and bicyclists in the area where the contractor is working.

NOTICE: It is unlawful for citizens to move traffic control devices within a construction zone and doing so could result in a fine. Additionally, driving through an active construction site is dangerous to you and the workers and could result in damage to your vehicle and/or bodily harm. Please obey all traffic control within the construction zone.

On Friday, July 26, the contractor will begin sewer installation along Hartman Lane between Jade Hollow Place and Overton Road. (SEE MAP) This closure will be in place 24-hours per day.

- Southbound only turn movements will be permitted from Jade Hollow Place.
- The contractor will cross Overton Road one half at a time. Flaggers will be on site to help direct traffic.
- North and southbound travel will be permitted on Hartman Lane between Cortaro Farms Road and Jade Hollow Place.
- There is no access to Cortaro Farms Road from Hartman Lane north of Jade Hollow Place.
- Work at Overton Road is scheduled to be complete prior to Marana School District start date of August 5, 2019. Access to Overton Road is scheduled to be available from Cortaro Farms Road by the start of the new school year, weather permitting.

Residents and the traveling public should watch for informational signs with detour information.

Continuing through Friday August 2, from 9 a.m. to 3 p.m. each day, the contractor will complete installation of a new manhole near the intersection of Cortaro Farms Road/Hartman Lane. (SEE MAP)

- Eastbound Cortaro Farms Road will be reduced to one through-lane and one left-turn lane.
- Turn movements to and from Hartman Lane will not be impacted.
• Sidewalk and crosswalk access will be restricted along the southwest side of Cortaro Farms Road at the Hartman Lane intersection.

  Emergency access will always be provided.

  The above work schedule may be impacted by weather or mechanical failure. During the sewer pipe installation, there will be extensive trenching and large equipment entering and exiting the work area. Motorists should remain alert and use caution when driving near construction activities.
