**Traffic Alert  
Twin Peaks-Blue Bonnet Road  
Gravity Sewer Project**

This is part of a series of traffic alerts and project updates that will be issued throughout the construction of the Pima County Regional Wastewater Reclamation Department's **Twin Peaks-Blue Bonnet Road Gravity Sewer Project**. These alerts will announce construction, detours and street closure information as it affects traffic. **Please watch for updated traffic alerts as construction activities progress.**

The contractor is **currently working** along the east side of Twin Peaks Road on the final phase of the project, which includes installation of a new 15-inch diameter sewer interceptor line and 22 manholes from Blue Bonnet Road north to Tangerine Road.

On **Monday, December 16 through Friday, December 20, Angel Drive will be closed** while the contractor installs pipe across the roadway.

- Residents wanting to access **Tangerine Ridge** can use **Tangerine Road to Migitty Lane** as an alternate.

The contractor has completed a *jack and bore operation* (drilled an underground, horizontal hole without disturbing the surface roadway) at the intersection of Twin Peaks/Dove Mountain and Tangerine Road. Additionally, the 30-foot sewer easement is located outside of the heavily travelled Twin Peaks Road travel lanes ensuring that this portion of the project will have minimal impact to the traveling public.

**The above work schedule may be impacted by weather or mechanical failure**

**Residents and the traveling public should watch for informational signs with detour information.  
Emergency access will always be provided.**

During the sewer pipe installation, there will be extensive trenching and large equipment entering and exiting the work area.  
Motorists should remain alert and use caution when driving near construction activities.
