

**AMENDED** TRAFFIC ALERT  
Pima County Regional Wastewater Reclamation Department  
Tucson Boulevard Diversion Structure Rehabilitation

June 6, 2022

Hunter Contracting Company, under contract with the Pima County Regional Wastewater Reclamation Department, has begun a sewer improvement project to replace the existing diversion structure located at the north end of Tucson Boulevard.

The traveling public will see equipment, aboveground pipes, work crews, and traffic/pedestrian restrictions during this improvement project.

**Because of material supply delays - which are out of our control, please note the following amended dates for upcoming activities:**

**On Tuesday, June 7 through Saturday, June 11**, the contractor will begin trenching activities to place the 54-inch diameter pipe along the west side of Tucson Boulevard **from the diversion structure location to just south of the Desert Archeology driveways**. The contractor will install the pipe from north to south, filling in the trench as installation is completed. Work will take place Monday through Saturday from 7 a.m. to 5 p.m.

- Tucson Boulevard will be reduced to one travel-lane from Allen Road to the north end of Tucson Boulevard.
- Flaggers will be on site to direct alternate one-way travel.
- Access to residential property and emergency responders will always be maintained.
- Pipe install is expected to be completed by the end of June. Pavement restoration will begin immediately following and continue through the end of July.

**On Monday, June 13 through Saturday, June 18**, the contractor will complete installation of several manhole structures located near the diversion structure at the north end of Tucson Boulevard. There will not be any impacts to traffic during this phase of work.

**On Monday, June 20 through Friday, July 1, 2020**, the contractor will complete the trenching and placement of the 54-inch diameter pipe along the west side of Tucson Boulevard, from Desert Archeology south to the area of Gentleman's Ranch.

- Tucson Boulevard will be reduced to one travel-lane from Allen Road to the north end of Tucson Boulevard.
- Flaggers will be on site to direct alternate one-way travel.
- Access to residential property and emergency responders will always be maintained.
- Pipe install is expected to be completed by the end of June. Pavement restoration will begin immediately following and continue through the end of July.

Alerts will be issued throughout the project and will announce field activities and potential impacts to local traffic, pedestrians and/or Loop users. **Please watch for updated alerts as the project progresses. You can also sign up on the project website [www.sewerimprovements.com](http://www.sewerimprovements.com) to receive electronic notifications delivered to your email account.**

Emergency access will always be provided.

\*The above work schedule may be impacted by weather or mechanical failure.
