## **Continental Ranch Regional Pump Station Force Main Augmentation Project**

Borderland Construction, under contract with Pima County Regional Wastewater Reclamation Department, has begun construction to install the new dual 24-inch pipe from the Continental Ranch Regional Pump Station (CRRPS), ultimately tying-in to the completed segment south of the Crossroads at Silverbell District Park between Cortaro and Ina roads.

The contractor has “turned the corner” on their trenching activity and are beginning to work southward toward Twin Peaks Road generally following the Chuck Huckelberry Loop (the Loop) alignment. *There will be extensive construction activity during this phase of work, which is scheduled to continue through May 2023, weather permitting.*

- **On Wednesday, January 11, the Loop will be closed to all pedestrian and bicycle traffic from the Blue Crossing Way access, south to Twin Peaks Road. ([See map for detailed closure area](#)).**
- Residents whose properties back up to the Loop should expect weekday construction activity – generally from 6 a.m. to 4 p.m.
- As work progresses southward, portions of the Loop will be re-opened when access is safely available for pedestrians and bicyclists, though through-travel may not be permitted.

When complete, the project will provide seven miles of a new dual force main sewer system between the Continental Ranch Regional Pump Station (CRRPS), and the Tres Ríos Water Reclamation Facility (WRF). The Loop travelers will also enjoy a newly paved pathway that will be installed from just south of the El Rio Neighborhood Park area to Cortaro Road.

Emergency access will always be provided.

\*The above work schedule may be impacted by weather or mechanical failure.
