**Continental Ranch Regional Pump Station
Force Main Augmentation Project**

Borderland Construction, under contract with Pima County Regional Wastewater Reclamation Department, has begun construction to install a new dual 24-inch pipe from the Continental Ranch Regional Pump Station (CRRPS), ultimately tying-in to the completed segment south of the Crossroads at Silverbell District Park between Cortaro and Ina roads.

On Monday, March 13, the contractor will CLOSE the Chuck Huckelberry Loop (the Loop) to all pedestrian and bicycle traffic between Twin Peaks Road and the Wade McLean Neighborhood Park located north of Cortaro Road. The closure is scheduled to be in place through late 2023.

- Loop access to Wade McLean Neighborhood Park will only be accessible from Cortaro Road or the Loop access point near Coyote Trails Elementary School.
- The Loop access point from Silverbell Road, near Coyote Trails Elementary School, will remain open only for southbound travel to Cortaro Road. Access to Twin Peaks Road will not be permitted.
- Northbound travelers from Cortaro Road will be required to either turn around at Wade McLean Neighborhood Park or continue westward along the pathway to Silverbell Road (Coyote Trails Elementary School).

The Loop remains closed to all pedestrian and bicycle traffic from Twin Peaks Road north to the Blue Crossing Way access point. This section of the Loop pathway is scheduled to remain closed through May 2023.

When complete, the project will provide seven miles of a new dual force main sewer system between the Continental Ranch Regional Pump Station (CRRPS), and the Tres Ríos Water Reclamation Facility (WRF). *The Loop travelers will also enjoy a newly paved pathway that will be installed from just south of the El Rio Neighborhood Park area to Cortaro Road.*

Click the link below to view our [interactive map](https://sewerimprovements.com/crrps-map). It will help you track the progress of construction and which segments of the loop remain accessible during construction.
