September 2, 2020

Traffic Alert
Mabel Street Sewer Improvement Project

Hunter Contracting Co., under contract with Pima County Regional Wastewater Reclamation Department, will begin construction field activities on the Mabel Street Sewer Improvement Project.

The traveling public should anticipate the following:

**On Friday, September 4**, the contractor will begin activities to install a temporary sewer bypass system along Mabel Street between 13th and 14th avenues. The bypass will redirect sewer flows through a temporary above-ground pipe so that construction activities can be performed without any disruption to sewer services in the area.

- Bypass pipes will be in place from September 4 through September 11 and will only operate during the daytime.
- Residential access will not be impacted
- In preparation of upcoming work, heavy equipment will begin being parked along the roadway.

**On Tuesday, September 8**, through the week of September 14, the contractor will excavate for and install the new 12-inch sewer line and manholes along Mabel Street between 14th and Main avenues. Residents and businesses in the area should anticipate the following:

- Residential and business access will be maintained.
- Temporary side street closures as work progresses (from west to east) along Mabel Street.
- Deep excavations and large equipment in the area.
- Mabel Street, between 14th and Main avenues, will be closed to all but local traffic through October 2020.
- The contractor will cooperate with postal deliveries and trash pick-up services.
- Emergency access will always be maintained.

The project includes the installation of new sewer line and manholes along Mabel Street between 13th Avenue and 6th Avenue. The traveling public will see heavy equipment, work crews and traffic control during this project. Construction is scheduled to be complete by the end of 2020.

The schedule is subject to change due to inclement weather or unforeseen circumstances. For your safety, please observe all traffic control, message boards and reduced speed limits.

Watch for construction personnel and equipment in the work zone.
